## May

Greetings Parents! School is winding down, and students are getting ready for summer. We need to remember that it is important to remain “school minded” until the end. We will still be following the same structured routine as always. On days that we do not have a lot of homework, we will plan an activity that the kids can enjoy, like playing a game inside or out in the field, or a constructive game, or a treasure hunt out-

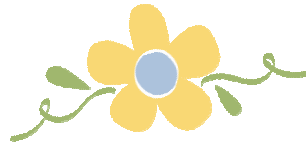

side Now that the weather is looking up, we find it very important that students get a break in their day for recess. We will try to do this as much as possible. We feel that getting outside each day is important part of a student’s busy schedule.

Thank you,
