

CORPUS CHRISTI CATHOLIC SCHOOL **ENRICHMENT PROGRAM**

At Corpus Christi Catholic School we believe that all students possess special gifts, talents, and leadership skills. We also believe these gifts and skills can be enhanced.

Mrs. Selby, a certified Montessori teacher, works in conjunction with the regular classroom teachers to address the special needs of students with identified learning differences, to motivate students who are presently on grade level and to additionally challenge students who are academically advanced. Through this combined effort we hope to empower our students to achieve their greatest potential.

There is an additional charge for the Enrichment Program which is determined by the number sessions a child attends per week. Student need, teacher recommendation and availability of space are criteria for students to attend this program, where they will be taught in small groups during the regular school day.

Mrs. Selby will begin with an initial assessment to determine student strengths, weaknesses and individual learning styles. The lessons will be tailored to meet specific student needs based on assessment information and parent and teacher input.

Assessment Fee: \$75.00

(Billed Annually)

Session Fee: \$30.00/30 min.

(Billed Monthly)
